

DAILY DEMOCRAT-FORUM

LARGEST CIRCULATION OF ANY DAILY PAPER IN ANY MISSOURI TOWN OF 5000 POPULATION

VOLUME 5.

MARYVILLE, MISSOURI, TUESDAY, SEPT. 15, 1914.

NO. 89.

ENROLL WITH RUSH

NORMAL ENROLLMENT IS NEAR
100 EARLY THIS AFTERNOON.

MAXWELL IS SECRETARY

Former Railroad Employee Succeeds L. M. Eek—More Enter Training School Than Previous Year.

The enrollment of students for the fall term of the Maryville state normal started off with the usual activity this morning at the opening of the registrar's office, despite the fact that many will be delayed in arriving here on account of the annulment of traffic on the Burlington branches.

At 1:30 o'clock this afternoon the total who had paid fees was seventy-five, according to E. E. Williams, treasurer. This number had been swelled to near one hundred at the time of going to press. The office force at the normal was taken rather by surprise this morning to see waiting in line for enrollment many young men and women. The line continued unabated throughout the morning.

Incidental fees are being paid at the Real Estate bank. Further enrollment and classification and outline of studies then is made at the normal offices. The normal put on the air of a real business-like institution again this morning after several weeks of apparent idleness since the summer term ended. However, the appearance from the exterior about the normal grounds the last few weeks was misleading, for the stir and hum of the typewriters and other preparations for the long fall, winter and spring terms continued unabated during the vacation. In fact, as the day for the fall opening drew nearer just that much so did the bustle grow more apparent.

Expect Good Attendance.

"While no definite figures are available yet apropos of the enrollment for the fall term, indications point already to a very favorable showing with the attendance of a year ago," said Prof. Ira Richardson, president of the normal, this afternoon. "The training school of the normal at 1:30 o'clock this afternoon had a larger enrollment than last year and many were still enrolling."

"Many who intend to enter the normal have been delayed on account of the recent rains and the resulting train tie-ups, but they probably will arrive within a few days. There are others too, already in Maryville, who have not paid their incidental fees or enrolled, therefore it would be difficult to even estimate the enrollment for the fall term."

Tie-Up Detains Instructor.

Miss Harriet Day, at the head of the art department of the normal, and who has been spending the vacation period in Indiana, is now detained because the Burlington wash-out at Creston, Iowa, according to word received by President Richardson this afternoon. Virtually all of the other members of the faculty have arrived in Maryville and prepared to assume their duties at the beginning of studies tomorrow morning.

Mark W. Maxwell, who has been employed in the office of the Rock Island superintendent at Belton, has been engaged by President Richardson as secretary at the normal to succeed L. M. Eek, who went from here to Northwestern University at Evanston, Ill.

Charles Caldwell of Burlington Junction spent the day in Maryville looking after some business interests.

DEFER PROBATE CASE

Farm Rent Settlement of King Estate Continued to November.

On account of the absence of several of the dozen heirs to the estate of Jacob J. King of near Burlington Junction who died some time ago, the settlement of rental notes, which was brought before Probate Judge W. H. Conn. was continued until the November term of probate court which convenes November 9. The amount involved is approximately \$400, contained in notes for the rental of the King farm near Burlington Junction the last two years. The heirs are scattered throughout the middle west.

A compromise, however, was arranged in the claim of Dr. Marcus Carter of Burlington Junction for \$245 for medical attention during the illness of the late Mr. King by Judge Conn. Dr. Carter accepted \$200.

RAINCOATS COME DEAR

Charge Burlington Resident with Stealing Valuable at Fair.

Heck Manes of Burlington Junction was arrested by Sheriff Edwin Wallace yesterday evening, on a complaint sworn to by Harley Hughes, charging Manes with having stolen a raincoat valued at \$5 from a buggy at the fair grounds here during the Nodaway county fair. Manes denied the theft when arraigned before Justice Warren L. Johnson late yesterday afternoon.

Upon failure to furnish \$200 bond Manes was committed to the county jail to await his preliminary hearing before Justice Johnson at 10 o'clock tomorrow morning, on a charge of petit larceny.

Hughes lives at No. 226 West Jenkins street.

Banquet Electric Laborers.

A banquet was tendered the laborers of the light plant of the Maryville Electric Light and Power company at noon Sunday by C. C. Hellmers, manager, at the plant. It was given especially for the benefit of those who helped install a large footing for a new boiler that is being shipped here from New York City to supply heat for the Maryville merchants.

The improvement is being done by Chalk Hawkins, supervisor and seven laborers.

Vaccinates Hogs.

G. A. Sullivan, of Nodaway county, has been vaccinating his pigs at weaning time for four years and has not in that time lost a hog by sickness. "It is the only safe way to handle hogs," he said while in the city this week. "Previous to the time I started vaccinating, I lost hogs almost every year. As a rule, vaccinating is becoming more general each year."—Kansas City Drovers Telegram.

Grants Marriage License.

A marriage license was issued this morning by J. A. Wray, recorder of deeds to Arthur L. Hunt, 21 years old, and Miss Alma I. Coffelt, 22 years old, both of Ravenwood.

Returns to Kansas.

Guy Oliver, of Iola, Kan., who had been visiting at the home of his aunt, Mrs. John T. Yates and family, who live south of town, left yesterday for his home.

Home From Eastern Trip.

Dr. and Mrs. Curtis Hammond Coo are expected home this evening from a six weeks' eastern trip during which they visited many places of interest along the coast of Canada.

Miss Beulah Bruner and Miss Mildred Miller, teachers in the Normal faculty, have returned from a visit of several weeks at Miss Miller's home at Sumner, Mo.

WRITES FROM ASIA

HOMER CROY FINDS SINGAPORE AN INTERESTING PLACE.

TO CALCUTTA NEXT

Maryville Product Will Visit Former American, Then Pass Through Suez Canal to Europe.

The following letter has been received by A. J. Croy, father of Homer Croy, the world famous writer who is a Maryville product, pure and simple, from Homer who, on his world tour, writes from Singapore:

"This time you find me in Singapore. Singapore is in the Malay peninsula on the Eastern side of India. I am now sixty miles from the equator. This is as near as I will get. And I might remark in passing that this is near enough. I don't pine to be any nearer. The equator is no place to hover around in July.

"But it is not as hot down here as you might imagine. I have not suffered with the heat as much as I did in Shanghai. To me Shanghai is hotter. They are careful about health affairs here. Every four days you have to go to a doctor and be examined.

"This city is made up of the greatest conglomeration of different people of any city in the world, I believe. It's certainly a melting pot. Indians, Chinese, Japanese, Sikhs, Tamils, Javanese, Burmese, Siamese, and so on till you can't rest. The streets look like a procession, with all the queer people on. And I must admit that a lot of them don't burden themselves with clothes. It is a strange thing but the Indian men out through this country wear skirts. It makes one's eyes pop to see a husky man going around in a skirt. I think this is the most interesting city that I have yet been in. "I feel fine. I don't eat any meat and keep myself in condition pretty well so that I am all right. But I imagine that my blood will be so thin by the time that I get back that I will shiver all winter.

"Tomorrow I leave for Calcutta. There I will call on a fellow that I used to room with at Columbia, Floyd Freeman. He is there in Y. M. C. A. work. Also Curtis Wray told me to look up a cousin of his who teaches in a girls' school, so I'll probably see her and feel at home there. I will be in Calcutta only three days when I will go by rail overland to Bombay, a distance of 1,300 miles. While in Calcutta I will see the Black Hole of Calcutta.

Java is right close here. It takes two days by boat. But I will not be able to make it.

"I had expected a letter from you while here. Didn't I give you my Singapore address? I always have my mail forwarded on so I will get it.

"Can you imagine me all dressed in white? That is the way everybody dresses out here—in duck. I even wear a white pith helmet.

"I am enclosing you a couple of snap shots. One of where I am standing in a doorway was taken in China, in the doorway of a Chinese temple. The suit I have on there is a light summer suit but is not white. The other picture was taken here in Singapore. It is not very good. There, as I am sitting on the ox cart, I am dressed in pure white. Those ox carts are the only kind they have in this city.

"By the way do you know how big Singapore is? It is as big as Kansas City, but most of them are Chinese and Malays. There are only a few white people here.

"Singapore is just half way around the world and so from now on I will be on my way home. I will get to New York about the last of September. "There are more crawling things here than I ever knew existed before in the world. Any place you look you can see something wriggling along.

"Did you ever see such large envelopes as this hotel furnishes?

"India is a whopping big country. It is amazing how large it is. It takes nine days travel to get from here to Calcutta. I will be on ship that long. Already I have been on the ocean, since I left San Francisco, thirty days. But I don't mind it as I write my Leslie stuff while on the water.

"I am enclosing you a bill of fare I had at a Chinese hotel in China. Do you think you would like those things? There were no rats on the menu!

Miss Blanche Shipp, Buchanan and Second streets, who is teaching a school near Parnell, has been compelled to close her school for several days on account of illness contracted last Friday. She is improving now.

STILL RISING HERE

102 RIVER IS 1 1/2 MILES WIDE HERE—FALL AT PICKERING.

MAY CUT OFF WATER

Burlington Loses Two Miles of Track, And Has Four Bridges Damaged—No service tomorrow.

Although the rains have abated temporarily at least within the county and both the Nodaway and the 102 rivers are receding in the north end of the county, conditions in central and southern Nodaway county are really worse than yesterday from all reports coming into Maryville. The Burlington probably will be unable to operate any trains over this branch before Thursday morning, while the Villisca branch through Burlington Junction is still tied up on account of washouts near Skidmore.

The greatest uneasiness is being felt by city officials this afternoon that the pumping station of the municipal water plant will be put out of condition by the 102 river and the supply of water cut off in Maryville. However, it will take an eighteen-inch rise yet to put the station out of order, according to J. W. Hilsabeck of the pumping station, in a communication with him at 2:30 o'clock this afternoon. "We are doing everything possible to keep the pumps working as long as possible," Mr. Hilsabeck said. "The station is being made as near waterproof as possible, although we were compelled to pump out a lot of seepage water this morning before starting the pumps. This seeps through the floor of the house and the pipes."

The water at 2:30 o'clock lacked from ten inches to a foot of being to the pumping station, according to Mr. Hilsabeck. "With the river rising less rapidly than this morning, it is not probable that the water will come within the pumping station," said Mr. Hilsabeck. "This morning the river rose ten inches within one hour, while this afternoon it is rising but from two to three inches an hour."

The sand point system was put out of condition early in the game by the heavy rains. The overflow from the river now is running into the municipal well on the Ditto farm, which connects with the sand point system, while the ditch dug in which to install the remainder of the sand points is being rapidly filled with silt and drift by the overflow.

The river was running two and three feet over the state road near the pump house this afternoon and many fields partly submerged. The bridge is in no immediate danger unless it would be the approaches. William Thornhill attempted to drive across the overflow in an automobile this afternoon, but was compelled to return to this side after having sunk the wheels.

Herman Barton, United States mail carrier on rural route No. 5, out of Maryville, was unable to go over his route today on account of the water from the 102 river flowing over the bridge on the Lee road. His route takes him over the Lee road then northwest of Maryville.

The 102 river, however, is said to be slowly subsiding at Hopkins and at Pickering the height had been reached this morning. Many believe that with the rains abated temporarily at least that the river will go but little higher here than it was during the early part of this afternoon. However, farmers living in the low lands are having such crops as can be harvested or removed from the low ground to guard against the flood waters.

The Burlington branches are in an awful condition as a result of the overflow waters from the 102 and Nodaway rivers and flood waters from the various small streams throughout this county.

W. E. Goforth, local agent, said this afternoon that no trains could possibly be operated through Maryville before tomorrow night, and possibly a day later. The southbound passenger train which was unable to get through yesterday is still lying between the two washouts between Douglas and Conway crossing, Iowa. The passengers, however, have been removed and are being cared for in the towns and farm homes nearby. The worst damage was done between Bedford, Iowa and Hopkins. Between 1 1/2 and 2 miles of the Burlington tracks have been entirely washed out while two of the bridges at that point have been washed off the pier caps. The approaches to two other bridges in the north end of

(Continued on Page 3)

DISTRICT CONFERENCE TO MEET

Will Be Held In This City October 18 and 19.

The annual conference of the Women's Missionary society of the St. Joseph district of the Methodist church South, will be held in this city on October 18 and 19. About thirty-five delegates will be in attendance. The program will show some interesting talks and many good speakers will participate.

The program for the two days' meeting will be arranged by the state conference officers of the district, which includes Mrs. A. M. Bedford of Savannah, district secretary; Mrs. E. B. Sheldon of this city, superintendent of Christian stewardship and Mrs. H. C. Handy of Fulton, second vice-president.

PLAN AUTO EVENTS

PRIZES AGGREGATING \$150 WILL BE AWARDED OCTOBER 16.

EXPECT LARGE PARADE

Fourth Day of Homecoming Week Will Bring Motor Cars Galore—Fireworks at Night.

Plans for Automobile day, October 16, in connection with Homecoming week, October 13 to 17, have been virtually completed by the committee in charge of that work. It consists of Dr. Jesse Miller, Lewis DeHart, and R. B. Montgomery. In connection, as on preceding days of the week's festivities, will be shown a grand display of fireworks by Pain.

Prizes aggregating in value \$150 will be awarded that day by the committee for various races and features. No entry restrictions whatever will be imposed except for two of the events. It is expected that Automobile day will be one of the biggest of the five happy days during the Homecoming, and that cars for a radius of many miles of good old Maryville, will flock in to witness the initial event of this nature here.

One of the features of that day will be an automobile parade during the afternoon. It is expected to extend for several blocks and to contain some of the best cars ever turned out by eastern manufacturers, added to in attractiveness by bunting, flags and flowers.

Announce Contests.

The following contests with resulting prize awards have been announced by Mr. DeHart, chairman:

Car carrying most people in parade (seven-passenger types excepted)—\$7.50, \$5 and \$2.50.

Car in parade that comes the farthest (tourists excluded)—\$5 and \$2.50.

Automobile race backward—\$7.50, \$5 and \$2.50.

Car from out of town (Maryville) bringing the largest family—\$5 and \$2.50.

Obstacle race for men—\$5 and \$2.50 and \$1.50.

Obstacle race for women—\$5, \$2.50 and \$1.50.

All of the races also will be held in the afternoon of October 16. In addition to this there will be \$75 distributed in sums of \$5 each, among out-of-town (Maryville) motor car owners. Owner will be required to register his name, the license number of his car before 3 o'clock that afternoon. In remuneration for this he will receive a number which will entitle him to an equal chance on one of the fifteen prizes of \$5 each. The announcement of the winners will be made that night preceding the pyrotechnical display by Pain.

Gift to Club Secretary.

A special committee of the Commercial Club this morning purchased a handsome and likewise costly cut glass water set as a wedding gift to its secretary, W. R. Jackson, who a week ago was married to Miss Ruth Walker of Denver at her home. Mr. and Mrs. Jackson are expected to return to Maryville tonight.

Homer Shipp, Buchanan and Second streets, left last night for Kansas City, where he will visit a few days then continue to Denver, Colo., where he will take a two weeks' vacation. Mr. Shipp is an automobile salesman here.

UNDECIDED BATTLE

BERLIN REPORTS ENGAGEMENTS WERE NOT POSITIVE RESULTS.

RETIREMENT OF RUSS

They Were Forced Back In East Prussia But Announce Heavy Losses to Germans.

(By American Press.)

Berlin, Sept. 15.—The German general staff gave out the following announcement today:

"In the Western theatre of the war our right wing of the army has been engaged in a heavy but not decisive battle. The French who endeavored to break through our lines were defeated at other points where there has been fighting, but no decisive results have been reached."

Petrograd, Sept. 15.—A dispatch from Petrograd to the Post Telegram on the operations of the Russians on the frontier, says that the Germans have concentrated enormous forces in East Prussia, causing corresponding retirement on the part of the Russians. The Germans in aid of the hard-pressed Austrians attempted to drive in with overwhelming lines from Nordenburg to Goldap upon the Russian base. At the same time the Russians have been drawing upon forces in East Prussia for reinforcements against the Austrian front. Thus the German attempt was well timed. General Rennenkampf, however, by clever maneuvering, succeeding in driving back the Germans with heavy losses.

RAIN CAUSES "Q" WRECK.

Burlington Engineer Is Killed When Train Derails at Nodaway.

A softened roadbed due to the recent heavy rains caused the derailment of the engine, two baggage cars and a mail car of the Burlington main line passenger train No. 26 between Kansas City and Omaha last night and the death of Albert E. McIntyre of St. Joseph, engineer of the train, at Nodaway. The wreck occurred at 8:30 o'clock near where the road crosses the Nodaway river at its mouth. McIntyre was the only person injured. It is believed his death was caused by being scalded rather than from the injuries received.

Accident Victim Improves.

Holmes Yates, of Burlington Junction, who was injured in an automobile accident about three weeks ago about eight miles south of Maryville, is slowly recovering at St. Francis hospital where he was removed.

Mr. Yates had his right leg broken between the ankle and the knee and was terribly lacerated over his entire body, when thrown against a wire fence.

The accident occurred as Yates and a companion were returning from St. Joseph. As the car approached a turn in the road, it skidded and butted against a fence. Yates was thrown over the front of the car against the fence.

Soon after being removed to the hospital blood poison resulted. It is believed now however that all danger is past and that Yates will be able to return to his home within a month or five weeks.

Van Cleave Family to Return.

Kenneth Van Cleave, the eldest son of Mr. and Mrs. W. C. Van Cleave, arrived in the city this morning from Moberly. He will be joined tomorrow by his mother and they will be at home in Maryville for the winter. Since leaving Washington, D. C., Mrs. Van Cleave and son have been visiting relatives at La Grange and Moberly. Mr. Van Cleave and the younger son, William Jr., will arrive in Maryville early in October. The family will be domiciled in their home at 222 West Fourth

Andrews' Hog Sale.

The public sale of W. W. Andrews, a farmer, who lives two miles southwest of Maryville, was held today. Mr. Andrews recently sold his farm of 120 acres to Edward Myers, of that neighborhood. R. P. Hosmer auctioneered the sale. The sale included three mares, one horse and two colts; twenty-five head of cattle and nineteen head of hogs, besides much grain, hay, implements and harness.

Articles brought a fairly good price, considering the condition of the weather. Stock sold at about the same range of prices as noted in previous sales in the county recently.

The Andrews family expect to leave about October 1 for Chung Water, Wyo., where Mr. Andrews will resume farming.

Leave for Minnesota.

Julius Ellerman and daughter, Nora, of Clyde, left yesterday for Campbell, Minn., summoned by the critical illness of Mr. Ellerman's daughter, Mrs. Al Kennell. The Kennell family lived on a farm south of the city until about two months ago, when they moved to Minnesota. Mrs. Kennell is a sister of Mrs. John Shonley of 403 East Thompson street.

Mrs. F. M. Petty returned Saturday night from a stay of several weeks in Kansas City and for a while will be a guest at the home of Mr. and Mrs. Fred Kurtz.

LIVE STOCK MARKETS.

CHICAGO.

Cattle—7,500; market, weak; estimate tomorrow, 16,000.

Mrs. James Corken of Burlington Junction spent today visiting friends in Maryville.

LESS IMPORT GAIN

EUROPE CONTRIBUTES 70 PER
CENT OF INCOMING GOODS.

THREE SHOW DECREASE

England, Holland and Russia Send
Fewer Supplies to United States—
Five Increase Importations.

Germany is our chief source for imported chemicals, its contributions thereof exceeding twenty million dollars value. Last year's imports included coal tar preparations, alizarin, aniline salts, indigo, potash, quinine and other drugs to the value of two and three-quarter millions. Other important articles were thirteen million dollars worth of cotton goods, one million tons of potash salts, used largely as fertilizers; one hundred and fifty million pounds of wood pulp, thirty-five million pounds of palm and palm kernel oil, eight million dollars worth of toys, and numerous manufactures, including machinery, cutlery, anti-friction balls, gloves, silks, paper goods, and clover and sugar beet seed. Certain food products were also imported from Germany in large quantities, the leading items being sixty-five million pounds of rice flour, seven million pounds of crude cocoa and two million dollars worth of spirits, wines and malt liquors.

France is the largest source of our imported silk goods, art works, automobiles and wines. The more important articles included last year twenty-two million dollars worth of art works, five million of chemicals, chiefly lactic acid, argols, glycerine and essential oils, eighteen and a half million of silk goods, eight million of cotton laces and embroideries, and large sums for perfumeries, diamonds, motion picture films and other manufactures, as well as nineteen million pounds of so-called English walnuts.

Italy supplies large quantities of macaroni, fruits and nuts, olive oil, prepared vegetables, cheese, still wines, art works, hats, argols and distilled oils.

Netherlands is a leading source for diamonds and wrapper tobacco, and also sends us hides, fish, spices, tin and paper stock.

Belgium is our largest source of diamonds, and sends us much rubber, hides and furs, and linens.

Switzerland leads as our source of imported cotton laces and watches, and is important in the matter of cheese, silk goods, and coal tar colors.

Ireland is first in its supply of linens.

Europe, which in recent years has supplied about 70 per cent of the manufactured goods imported into the United States, showed, in the fiscal year which ended June 30, 1914, a smaller gain in its contributions of general merchandise than any other grand division except Africa. According to official figures of the department of commerce, imports from Europe were three million dollars greater than in the previous year, compared with a gain of five millions in imports from South America, five millions in those from Oceania, ten millions in those from Asia, sixty-five millions in those from North America, and a loss of seven millions in those from Africa. France, Italy, Germany, Switzerland and Spain showed gains, while the United Kingdom, the Netherlands and Russia were among the important European countries the imports from which decreased during the past year.

The character of goods imported from Europe has been the subject of so many inquiries reaching the bureau of foreign and domestic commerce that the following summarization has been prepared by that office showing the principal manufactures and manufacturing materials for its chief supply of which the United States has usually looked to Europe. Considering the seven countries which contribute 85 per cent by value of all goods imported from Europe, it is found that they furnished last year the classes of merchandise specified in each case. Certain of the articles mentioned below as imported from Europe are derived from other parts of the world, this being true of tobacco, spices and tin from the Dutch and other East Indies, diamonds from South Africa, wool from New Zealand, Australia, Asia and South America, rubber from the East Indies and other tropical countries, and tea from India, China and Japan.

Imports from England included nearly twenty million dollars worth of cot-

IT'S GREAT FOR BALKY BOWELS AND STOMACHS.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of May's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our local people have been taking with surprising results. The most thorough eye-sight cleanser we ever sold. May's Wonderful Stomach Remedy is now sold here by

Rubber Shoes For Wet Weather

This wet spell is a hint to what will come often this winter. A visit to the Montgomery Shoe Co., will prepare you for wet weather.

We have a miner boot for \$4.50 that will appeal to you men who work outdoors. It has a special white sole. Our other boots range from \$3.00 up.

For the school children we have a variety of lines of excellent wearing rubbers.

Prepare today for wet weather

MONTGOMERY SHOE CO.

Miss Barmann Improving.

Miss Ora Barmann, the daughter of Mr. and Mrs. Frank Barmann, who is ill at the St. Francis hospital, is improving daily. Miss Barmann underwent an operation for appendicitis last Wednesday. She went through the ordeal very well and continues to improve.

Miss Grems Hostess.

In honor of Miss Margaret Beattie Miss Della Grems entertained guests for two tables of euchre this afternoon at her home, 609 East First.

Penelope Club.

The Penelope club will be entertained tomorrow afternoon by Mrs. J. Ed Costello at her home on South Buchanan street.

Hansons at Home.

Mr. and Mrs. Walter Hanson, of St. Joseph, arrived in Maryville Saturday to make their home. They have leased the Joseph Everhart residence on East Sixth street. Mr. Hanson takes up his work today as head of the manual training department of the Normal.

To New Home.

Mr. and Mrs. Edward Egley and family are moving today from the Borusch flats into their new home on North Main street which has just been completed. The Egley home is a \$5,000 residence and one of the handsomest in that section.

Guests of the Porters.

Mrs. J. D. Randolph and children, John and Joe, Jr., were Sunday dinner guests of Mr. and Mrs. J. H. Porter, who entertained them as a farewell visit before their departure for their new home at Fayette, where Rev. Randolph has a pastorate for the coming year.

In Honor of Miss Beattie.

Mrs. George Richard Eaton will entertain a number of guests this evening with a movie party, given as a courtesy to Miss Margaret Beattie, of Newport, Ark., who is visiting Mr. and Mrs. M. L. Beattie for a short time. An after theatre luncheon will be given at O'Rear's.

Dinner Party at Kelloggs.

Mr. and Mrs. Truman Kellogg, of Barnard, were the hosts at a dinner given Sunday when their guests were Judge and Mrs. R. F. Westfall, Mr. and Mrs. Thomas Cook, Mrs. Eunice Goforth, Miss Blanche Stalling, Miss Jessie Goforth, Miss Helen Merrill, Miss Ruth Merrill and T. H. Toohar.

In Honor of the Bairds.

Mr. and Mrs. Albert Swann entertained with a dinner party today noon complimentary to Mr. and Mrs. James Claud Baird of Chicago, who are visiting in the city. Plates were laid for Mr. and Mrs. Baird, Mr. and Mrs. Lincoln Bent, Mrs. R. C. Seal, Miss Nina Bent and Mr. and Mrs. Swann.

Mrs. Guthrie Hostess.

Mrs. V. A. Guthrie entertained the members of the Herron Home Making Circle Tuesday afternoon at her country home northwest of the city. The hours were spent with needlework after which a dainty luncheon was served by Mrs. Guthrie, assisted by Mrs. Delbert Vert. Luncheon was served in the dining room which had been very prettily decorated. The

GEO. CURRY
ex-Governor, New Mexico

"Tuxedo appeals to me strongly on account of its cool, mild, pleasant flavor. Therein lies its superiority to all other tobaccos."

Geo Curry

STANTON WARBURTON
Congressman, State of Washington

"My own experience leads me to believe that every desirable quality is present in Tuxedo Tobacco. It is the best smoke I ever had."

S. Warburton

IRVIN S. COBB
humorist and novelist

"I can't think of any reason why I shouldn't say I like Tuxedo—because I do like it, very much."

Irvin S. Cobb

Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original Tuxedo process which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

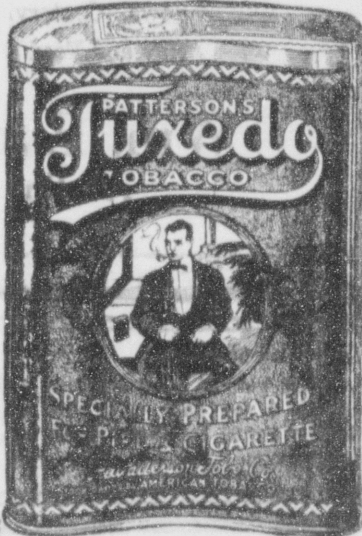

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of an odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

YOU CAN BUY TUXEDO
EVERYWHERE

members present were Mrs. Delbert Vert, Mrs. A. H. Hughes, Mrs. John Halasey, Mrs. W. T. Osborn, Mrs. M. Guthrie and the hostess. The next meeting will be held at the home of Mrs. L. E. Rogers.

Mr. and Mrs. Yates Entertain.

Mr. and Mrs. John T. Yates, who live south of the city, entertained with a dinner party at noon Sunday complimentary to Mr. and Mrs. B. M. Cottrill, who left this morning for Emporia, Kansas, to live permanently. Plates were laid for Mr. and Mrs. Cottrill and son, Floyd, Mr. and Mrs. Leonard Ep-

person and daughter, Anna Maude, Miss Mae Doran and Mr. and Mrs. Yates.

Hubbard Family Here.

Rev. J. H. Hubbard, the new pastor of the Buchanan street Methodist church, accompanied by Mrs. Hubbard and daughters, arrived in Maryville yesterday from Monroe City and are being entertained at the home of Mr. and Mrs. J. H. Thorp. The Hubbard family includes two daughters, Ruth and Iva, misses of 17 and 14. By the last of the week they will be at home in the parsonage, 212 West Second.

To Attend Northwestern.

Miss Carrie Margaret Baker, the daughter of Mr. and Mrs. George H. Baker, left this morning for Evanston, Ill., to resume her studies at Northwestern university. She was accompanied to Chicago by her mother, who will spend a week visiting.

Back On the Job.

W. E. Goforth, agent for the Burlington, was able to be at the station today and on the job again. Mr. Goforth has been ill since last Friday and confined to his home. He was able to be at the station most of today.

There's no secret about what can be done with the help of Fels-Naptha Soap.

It's something every woman who has used it is glad to tell every woman who hasn't.

Fels-Naptha Soap dissolves dirt. It makes clothes clean and white without hard rubbing or boiling; it does not hurt delicate material, is just as good for heavy blankets, greasy overalls, stained carpets and rugs as it is for laces. It cleans woodwork, pots and pans, fine china or cut glass. It does this in cool or lukewarm water, with little trouble, the year round.

Use Fels-Naptha Soap. Use it the Fels-Naptha way and the rest is easy.

Anty Drudge Makes Mrs.
Newbride Happy

Anty Drudge—"Well, here I am, bright and early, so as to show you how to use Fels-Naptha Soap and get your wash out of the way before the end of the day."

Mrs. Newbride—"Mother will be so surprised when I show her how much I have learned since I got married. I must tell her about Fels-Naptha Soap. This is where I get ahead of her. She has never used it, and she has such dreadful washes it takes her all day to do them."

GERMANS
MAKE STAND
ON AISNE

Halt at River to Give
Foes Battle.

DECISIVE CLASH OF WAR

Invading Teutons Turn and Face
Pursuing Allies.

ALLIES HAVE RETAKEN AMIENS

On Left Wing Have Caught Up
With Rear Guard of Foe.

The reoccupation of Amiens by the French and the preparations by the Germans on the river Aisne to make a stand against the allies are the chief announcements contained in the latest statement issued by the French government.

Petrograd reports that the Russian troops are crossing the San river and that the Russian army in repulsing a desperate attack by the Austrians captured many prisoners. The British official press bureau denies the reports that Russian troops have landed in Belgium and declares also that there is no truth whatever in the rumors that Russian soldiers have landed in or passed through Great Britain on their way to France and Belgium.

A Copenhagen dispatch says advice from Berlin admit that the chief Austrian army has suffered an absolute defeat at the hands of the Russians.

Among the German prisoners arriving in the neighborhood of Paris are a general and his entire staff. Peking reports that 25,000 Japanese have been landed on the Shantung peninsula and that Japanese troops are passing toward Fingtu, about forty miles north of Kiauchau, the German protectorate in China.

Paris, Sept. 15.—A French official statement says that French troops reoccupied Amiens, which was abandoned by the Germans, but that the Germans are making a stand on the river Aisne.

The statement is as follows: "On our left wing we have everywhere caught up with the rear guard and even the main body of the enemy. Our troops have re-entered Amiens, abandoned by the German forces."

"The enemy appears to be making a stand on a prepared front along the river Aisne."

"On the center, similarly, it would seem as if the enemy intends to resist on the heights to the northwest and to the north of Rheims. In the region between Argonne and the Meuse he continues to retire."

"On our right wing we have succeeded in relieving the fort of Troyon, which has been stubbornly attacked time and time again during the last few days. (Troyon is twelve miles south-southeast of Verdun.)"

"In Lorraine, our pursuing detachments are keeping, as everywhere else, in touch with the Germans."

"The morale and sanitary condition of our armies continue excellent."

Pope Sends Sympathy to Britain.

Rome, Sept. 15.—A dispatch from Turin quotes the Stampa as saying that Cardinal Bourne, archbishop of Westminster, is conveying from the pope to King George a letter which is filled with sympathy for the British nation, which is described as the "guardian of peace and master of justice."

Export Trade in Cotton Destroyed.

Washington, Sept. 15.—The extent of the effect of the European war on American industry was disclosed in the census bureau's August cotton consumption report, showing that during August only 21,219 bales of cotton were exported, while during August last year 257,171 bales went abroad.

Railroads Will Ask Rehearing on Rate Washington, Sept. 15.—Chairman Clark of the interstate commerce commission announced that the railroads had given formal notification that they would petition to reopen the advance rate question. The commission denied the roads' application for a flat increase of 5 per cent in freight rates, but allowed certain increases.

Democrat Elected Governor of Maine.

Portland, Me., Sept. 15.—Mayor Oakley C. Curtis of Portland, a Democrat, elected governor of Maine over Governor William T. Haines (Rep.) of Waterville, who was a candidate for a second term, by a margin of 2,700 votes.

RUSSIANS TAKE
180,000 MEN

Result of Seventeen Days'
Battle in Poland.

FOE RETIRING IN GOOD ORDER

Czar's Forces Capture 450 Field Guns and 1,000 Pieces of Artillery—Berlin Messages Admit Main Austrian Army Defeated Near Mlawa.

London, Sept. 15.—A dispatch to the Central News from Rome says telegraphic advices received there from Petrograd are to the effect that the seventeen days' battle of the Russians against the Austro-German forces ended with the following result: "Prisoners taken, 180,000; field guns captured, 450; fortress artillery captured, 1,000 pieces; transport wagons taken, 1,000; aeroplanes captured, 7."

Germans Defeated. The Russian embassy in Rome, according to the correspondent of the Central News, says that the German army commanded by General von Hindenburg has been defeated near Mlawa, Russian Poland, and that the Germans are evacuating Poland with a loss of 50,000 men. The ambassador adds that the Russians have assumed the offensive in Prussia and have commenced to lay siege to Koenigsberg.

A dispatch to the Central News from Copenhagen says that Berlin messages received in Copenhagen admit that the chief Austrian army has suffered an absolute defeat, but claim it is retiring in good order. "General von Auffenberg's army," the correspondent continues, "is said to be in a dangerous position, being cut off from the main army. The Austrians have had terrible losses."

Russ Successes Continue. Paris, Sept. 15.—In a dispatch from Petrograd to the Havas agency an official communication declares that the Russian successes in Galicia are continuing.

This official communication was given out by the Russian general staff. "It is necessary to turn attention to the theater of war in Galicia, where the development of our success continues. Up to the present time we have been prevented from placing a sufficient force in eastern Prussia to continue the invasion so happily begun there. It was for this reason that the army under General Rennenkampf halted along the line from Gerdauen (in east Prussia, forty miles south-east of Koenigsberg) to Libau. German troops on Sept. 9 took up a generally offensive movement against this army, executing advance movements on our southern frontier. It was not until Sept. 10, when the general attack on the left wing of General Rennenkampf's army was made, that the numerical strength of the German army was revealed. They were found to be much superior to our forces. It is along this line that the battle now rages."

CUT DOWN ALLOWANCE

Refugees Stick Committee With a Fat Hotel Bill.

London, Sept. 15.—Two young American women who arrived from Berlin were given the address of an inexpensive hotel by the American relief committee. Instead of going there, they put up at a luxurious hotel and, according to the committee, appeared at the relief headquarters and presented a hotel bill for \$50, requesting that it be paid on their behalf. They also asked to be provided with first class passage on a steamer to New York as they swore that they were penniless.

The committee felt compelled to pay the hotel bill, but allowed them only \$7.75 each daily for living expenses until Saturday, when they will proceed to New York as second class passengers. This privilege was granted because the young women declared that they were in frail health.

Three to Get Legion of Honor.

Paris, Sept. 15.—Very slowly certain names are becoming known as those of contributors to last week's successes. Three generals have been promoted in the Legion of Honor. Their promotion strikes a blow at the theory that a man is too old at forty to accomplish anything. These generals are Maunoury, sixty-seven years old, recalled after he had been retired for age, and Dubail and Foch, both sixty-three years old.

Reinforcements to Go to Memel.

Paris, Sept. 15.—A Havas agency dispatch from Petrograd says the Germans are sending reinforcements to the fortress of Memel (the northernmost town of the German empire on the Baltic, seventy-two miles north-east of Koenigsberg), which threatens Tilsit. The Russian imperial council is examining the laws for the administration of conquered Prussian and Austrian territory.

Home Rule Bill to Be Law.

London, Sept. 15.—Both the home rule bill and the Welsh disestablishment bill are to be placed on the statute books this week. Announcing this fact in the house of commons, Premier Asquith said that he would introduce a bill providing that no steps be taken to put either act into operation for a year in any event.
